ABOUT STUDYIX

AI-native EdTech platform (studyix.com) for India's 100M+ competitive-exam aspirants — SSC, UPSC, Banking, Railways, Defence, State PSCs, Boards, DSA/coding. **Live in production:** 620 users · 3,035 tests completed · 305 contests run since April · 1,733 historical Razorpay txns + 86 paid passes on the new subscription model · ~50 peak daily actives. Built on Google Cloud (Cloud Run, Cloud SQL, Vertex AI). Razorpay + Xoxoday API (Amazon voucher scholarships) integrated. **Fundraising:** 3one4 Capital in active diligence · IAN (Padmaja Ruparel + Pushpa) engaged · ₹2 Cr pre-seed round in progress. Top scorers earn merit scholarships funded from Studyix's own budget — compliance-first under MeitY Online Gaming Act 2025 (mirrors NTSE/KVPY framing).

THE 3 PATHS — PICK WHAT FITS YOU

PATH 1 · INTERN

Internship only

₹15K-30K / month

3-6 month paid internship. Ship to live users from week 1.

For: students or early career, focused short stint.

PATH 2 · INTERN + PPO

Intern → PPO → Full-Time

₹20K-40K / month

3-6 month paid + explicit PPO milestone. Top performers convert to full-time + ESOPs.

For: final-year / recent grads wanting a fast-track founding-team role.

PATH 3 · FULL-TIME

Direct Full-Time + ESOPs

₹8L-18L / year

For candidates with **1+ year of relevant experience**. Founding-team SWE role + ESOP grant (4-yr vest, 1-yr cliff).

For: shipped production code in React / Node / Python / GCP.

WHAT YOU'LL BUILD

- **Frontend:** Next.js 15 / React 18 — live test player, AI Tutor streaming UI, leaderboards, payments
- **Backend:** Node.js / Express / Sequelize / MySQL — contest engine, scholarship payouts, anti-cheat
- **AI pipeline:** Two-pass LLM question generation (generate → critique → RAG-verify). Spaced Repetition (+1d/+3d/+7d). AI Tutor RAG-grounded in NCERT
- **Infra:** GCP Cloud Run, Cloud SQL, Cloud Tasks, Firebase, Vertex AI. Redis. CI/CD via GitHub Actions
- **Integrations:** Razorpay (collect), Xoxoday API (voucher payouts), WhatsApp notifications

WHAT WE LOOK FOR

Required

- Fundamentals in **JavaScript/TypeScript OR Python** — one production-tier project (React, Node, or Python)
- Bias for action · comfortable shipping to a live codebase · PRs, reviews, tests
- Excited by EdTech, AI, or consumer products for India

Nice to have

- **Python skills** — strong plus for AI pipeline / RAG / automation / content services
- LLM APIs (Vertex AI / OpenAI / Anthropic / Gemini) or RAG hands-on
- GCP / AWS / open-source contributions / coding-contest background (DSA track Q3)

TECH STACK

Next.js 15 · React 18 · Node.js · Python · MySQL · Redis · Tailwind · GCP Cloud Run · Cloud SQL · Cloud Tasks · Vertex AI · Firebase · Razorpay · Xoxoday API · GitHub Actions · Jest

JavaScript/TypeScript runs the web app; Python powers parts of our AI pipeline and automation. Comfortable in either stack works.

How to apply

Reply to contact@studyix.com with:

→ LinkedIn · phone (WhatsApp preferred) · college + grad year · current city · joining timeline · which path (Intern / Intern+PPO / Full-Time) · resume · 2-3 time windows for a 15-min Google Meet (10 AM - 9 PM IST)

Decision in **under a week** from first call. No 8-round interview gauntlet.
